Lab 8.	1. Styling with CSS	1
8.1.	Macromedia DreamWeaver.....	2
8.2.	Embedded style.....	4
8.3.	External style.....	6
8.4.	Text properties.....	7

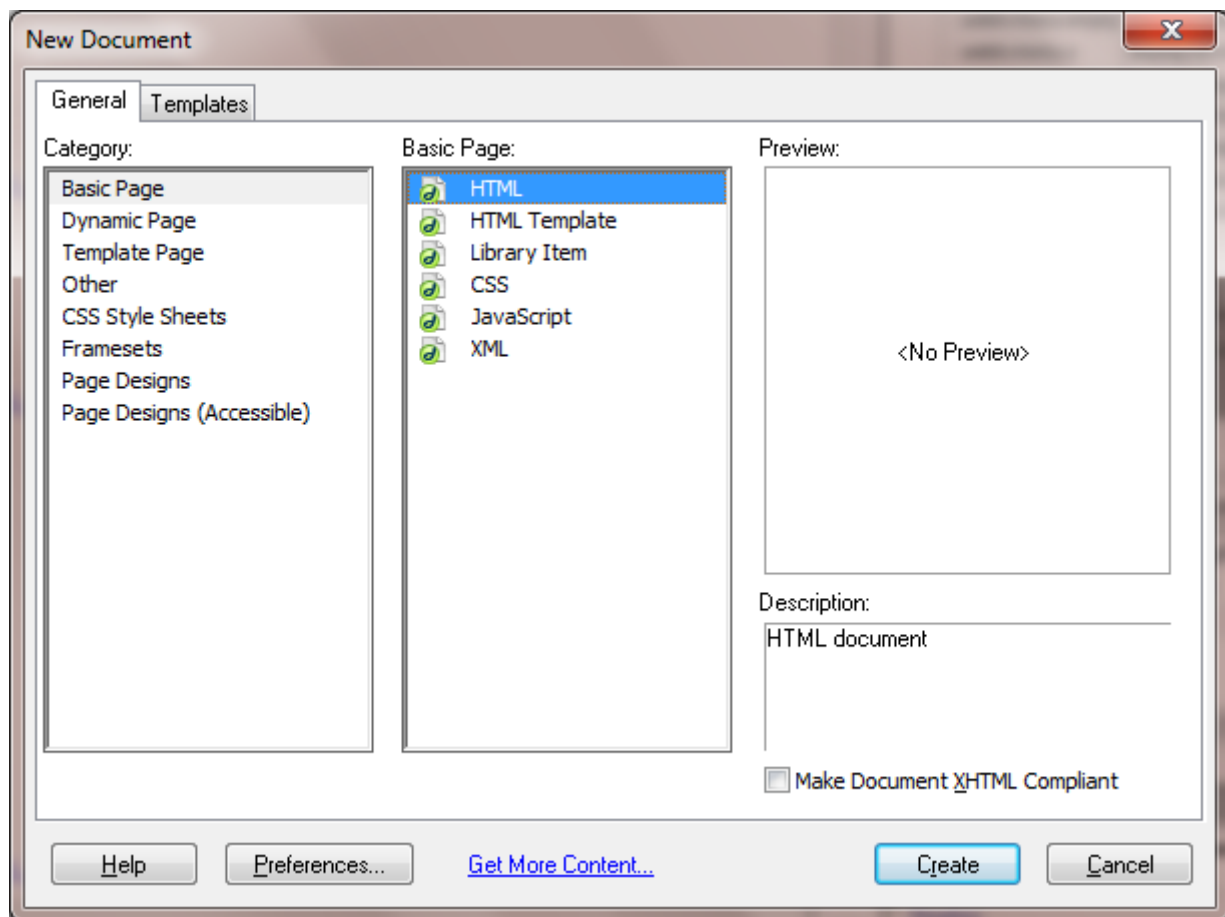

8.1. Macromedia DreamWeaver

Step 1. Install Macromedia Dream Weaver to design HTML & CSS

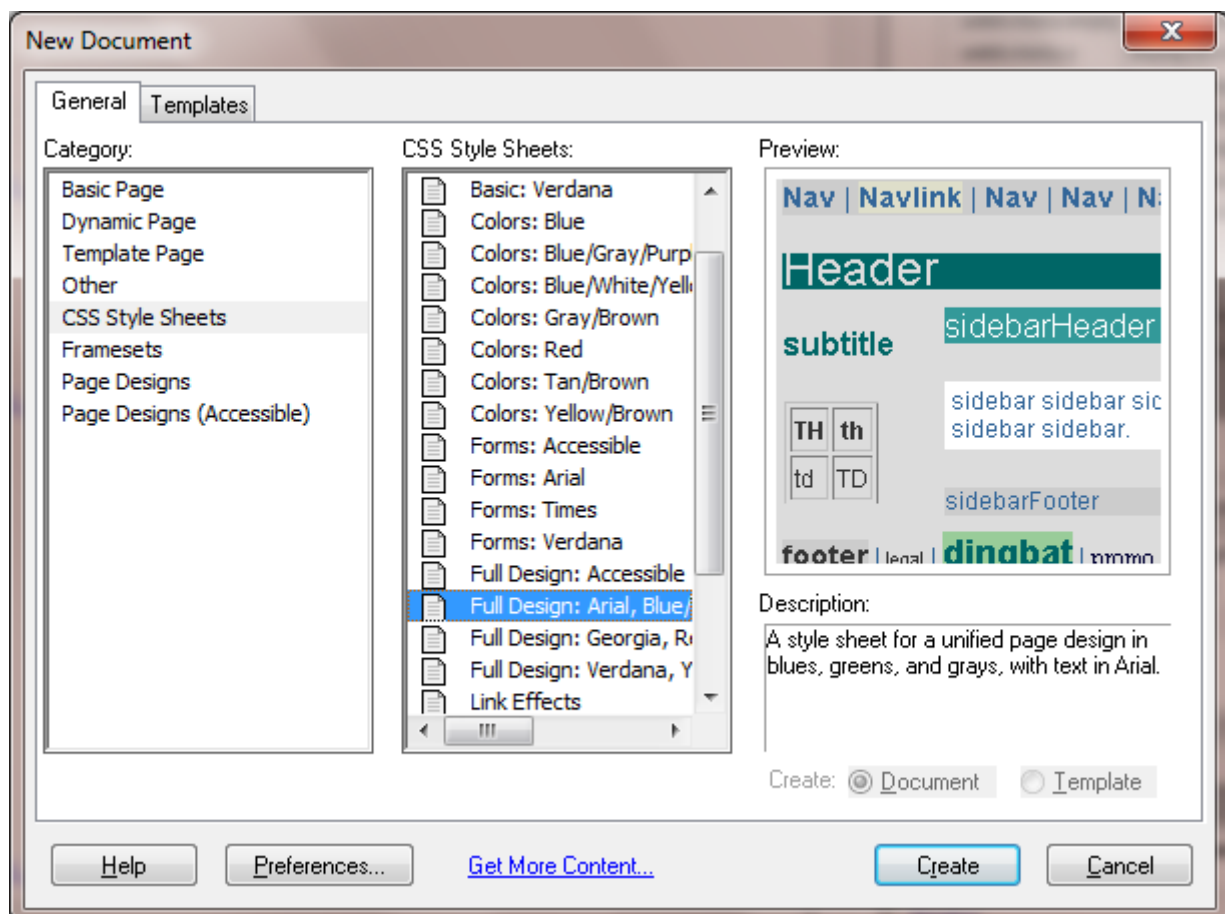

Step 2. Basic operations

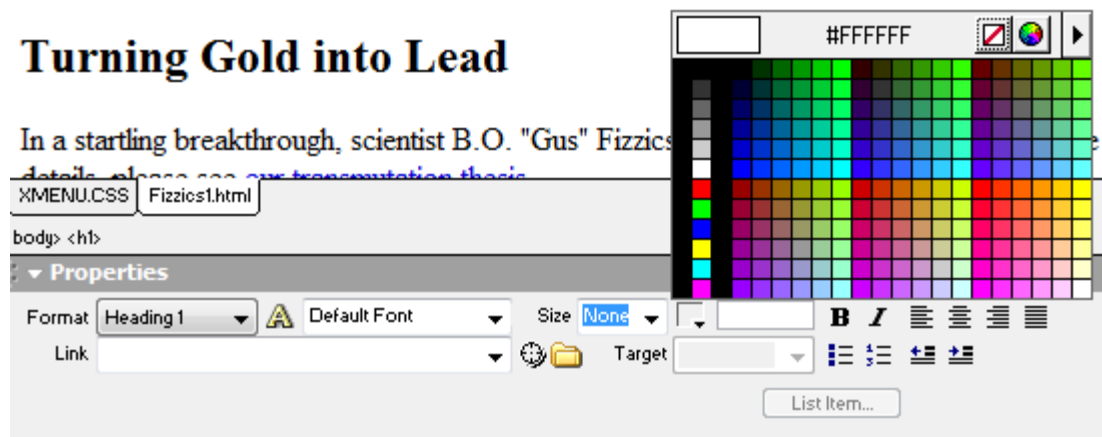

1. New Document: Go to menu File → New
 - a. HTML

b. CSS: No Template or with Template

2. Change Properties of an element/tag
 - a. Choose the element/tag
 - b. Change properties in the Properties view

8.2. Embedded style

Step 1. Create Fizzics1.html (no style sheet)

You can copy the following code so that you don't have to re-enter. Note that choose View → Code and Design to see both code and its preview as in the browser.

New Advances in Physics

Turning Gold into Lead

In a startling breakthrough, scientist B.O. "Gus" Fizzics has invented a **practical** technique for transmutation! For more details, please see [our transmutation thesis](#).

Step 2. Save as Fizzics2.html

Add `<STYLE TYPE="text/css"> ... </STYLE>` to the HEAD part of the Fizzics1.html as the following, observe the result. Download the confetti-background.jpg and put it in the images directory.

```

1 <!--
2 <HEAD>
3 <TITLE>Document Title</TITLE>
4 <STYLE TYPE="text/css">
5   <!--
6     BODY { background: url(images/confetti-background.jpg) }
7     H1 {
8       text-align: center;
9       font-family: Aharoni;
10    }
11    H2 { font-family: "Segoe Script" }
12    STRONG { text-decoration: underline }
13  -->
14 </STYLE>
15 </HEAD>

```

Result:

for his name's sake. Yea, though I walk through the valley of the shadow
of death, I will fear no evil: for thou art with me; thy rod and thy
staff they comfort me. Thou preparest a table before me in the presence
of mine enemies: thou anointest my head with oil; my cup runneth over.
Surely goodness and mercy shall follow me all the days of my life: and I
will dwell in the house of the LORD for ever.
